

Feeding Instructions

Feed at maintenance to support energy utilization in hard working performance horses. Feed Loading Rate at times of peak performance. Also an ideal tonic for horses with poor blood profiles and lethargy.

Horses	ml per day	Tablespoons (15ml)
Loading rate (3-5 days)	60	4
Maintenance	30	2

Ponies

Loading rate (3-5 days)	45	3
Maintenance	15-30	1-2

Shake bottle well before use.

Do not exceed recommended levels.

A 2L bottle fed at 30ml per day will last approximately 66 days.

Ingredients

Composition

Water, Maize starch (pre-gelatinised).

Additives (per litre)

Trace elements
