

Five Star Oestress

Helps the mare to balance her oestrus cycle naturally by targeting the root causes of her discomfort which lead to her moods.

Feeding Instructions For use where behavioural changes and tension are seen in mares which can affect temperament and performance.

	g per day	scoops per day
Horses & Ponies		
Loading rate (7-10 days)	30	3
Maintenance	10-20	1-2

Introduce gradually for fussy feeders.

One 20ml scoop provides approx. 10g.

A 1kg pot fed at 10g per day will last approximately 100 days.

Maintenance levels may be adjusted to suit the individual, and are not necessarily related to bodyweight.

Loading rate may be used to establish her on Oestress, and during the peak time of her season.

Not recommended for pregnant mares, and it is recommended to discontinue use on broodmares two months prior to covering.

Also suitable for geldings showing 'riggy' behaviour.
